

(c) the mere discovery of a scientific principle or the formulation of an abstract theory <sup>2</sup>[or discovery of any living thing or non-living substance occurring in nature];

<sup>3</sup>[(d) the mere discovery of a new form of a known substance which does not result in the enhancement of the known efficacy of that substance or the mere discovery of any new property or new use for a known substance or of the mere use of a known process, machine or apparatus unless such known process results in a new product or employs at least one new reactant.

(p) an invention which, in effect, is traditional knowledge or which is an aggregation or duplication of known properties of traditionally known component or components.]
